Formwork that works.

MÄCH DECK

Mäch Deck System is a high octane, high performance engineered modular panel shoring system. Wallgreens offers faster erection, stripping and slab cycles that can never be expected from conventional systems.

BENEFITS

- Only 3 basic components - panel, drop head & heavy duty props allowing an idiot proof installation
- Drop-Head Mechanism : Spring-based release.
- Early Stripping : Reuse panels in 3-4 Days.
- High-Strength Props: No tripods or horizontal bracing required. Result : **Open Site** for easy inspection.

QUALITY & OPTICS

Feature	Mach Deck (New Standard)	Traditional Systems
Drop Head	Spring-Loaded : Quiet, precise.	Hammer-Striking : Noisy.
Site Aesthetics	Clean Layout : Zero X-Bracing.	Dense Site: Clutter everywhere.

TECHNICAL SPECIFICATIONS

System type	Slab Formwork
Material	Low-weight aluminum panels
Sheeting	Tried and tested Birch Sheeting with long service life
Slab thickness	up to 85 cm
Weight	23 kg/m2
Technical requirements	Only one prop per 2.88 m^2 of slab area
Largest Panel Size	2400 x 1200 mm

Tata Semiconductor, Guwahati
